1 MS. PAYTON:

2 Object to the form of the question.

3 A. Extraction is when you take a material
4 and you remove some of the inert materials from it
5 and then reclaim what's still left over. So
6 you're bringing compounds out of a plant material.

7 BY MR. ABOLINS:

8 Q. And for RMH specifically, what was being
9 extracted from hemp?

10 A. Cannabinoids, mainly CBD.

11 Q. And where did this process take place,
12 or which places did this process take place?

13 A. It operated in Springfield, Colorado.

14 Q. Anyplace else?

15 A. No.

16 Q. For what years did it operate?

17 A. RMH was in operation from right around
18 2015 or '16 to 2019, I believe.

19 Q. And what roles did you have with respect
20 to RMH during the span of those operations?

21 A. I did not have a specific role with RMH
22 at that time.

23 Q. So you had no specific role with RMH
24 between 2015 and 2019?

25 A. That is correct.
